.NET Developers

At Dakar Software Systems we are a leading provider of Payroll and HR software solutions in Malta. In business for over 30 years, we have developed a reputation for implementing quality solutions of varying complexity within organisations employing from 2 to 40,000 employees. Over these years we have built a complete portfolio of HR solutions, implemented and supported by a team of professional service-oriented individuals for whom teamwork, competence and customer service are key attributes.

Position description

We are seeking skilled .NET Developers to join our dynamic team. Successful candidates will be responsible for designing, developing and maintaining software applications using the .NET framework. Successful candidates will be working in a collaborative environment, working closely with other developers, project managers and business analysts to develop software solutions that meet the needs of our clients.

Responsibilities

- Design, development and maintain software applications using the .NET framework
- Write clean, maintainable and efficient code
- Work with project managers and business analysts to gather requirements and provide technical expertise
- Collaborate with other developers to implement software solutions
- Troubleshoot and debug issues as they arise
- Stay up-to-date with emerging trends and technologies in software development

Job requirements

- Bachelor's degree in Computer Science, Engineering or related field
- At least 3 years of experience in .NET development
- Experience with C#, ASP.NET, MVC, Web API and SQL databases
- Familiarity with JavaScript, HTML and CSS
- Strong understanding of software development principles and design techniques
- Ability to work collaboratively in a team environment
- Excellent communication skills and the ability to explain technical concepts to non-technical stakeholders

If you are a self-starter with a passion for software development and currently reside in Malta with a valid work permit, kindly send a CV to administration@dakarsoftware.com.

All applications will be treated in strict confidence.
