Dakar is seeking to recruit **Software Support Personnel** on Full time basis.

Dakar Software Systems is a leader in the development and delivery of scalable HR and People Management software solutions. The company specialises in offering web-based and desktop solutions. These include Payroll, Personnel (HR), Training, Recruitment, Performance Appraisal, On-line Clockings, Rostering, and Time & Attendance software applications.

We are currently looking for **Software Support Personnel** who have a good technical background and wish to form part of the support team of a market leading company.

The job includes installing, configuring and training the DakarHR suite of products together with analysing client functional requirements and implementing them. The ideal candidates would have software development experience or a flair for software development and, importantly, enjoy interacting with and assisting clients. A good working knowledge of .Net and PHP development would be considered an asset. We are also looking for good problem-solving skills, a positive attitude, success-oriented thinking and meticulous attention to detail. Prospective candidates should be willing to learn new technologies, implement new processes and work under their own initiative.

If you are interested in this position please send a curriculum vitae to administration@dakarsoftware.com
